KAISER PERMANENTE REDWOOD CITY HEALTHCARE

PROJECT NARRATIVE

This medical office building will provide specialty medical services delivered in Kaiser’s new collaborative care concept, “Reimagining Ambulatory Care Design (RAD)”. The facility also includes wellness education and retail services.

CONX SOLUTIONS

2x-5x faster than conventional steel. 10,000 -15,000 sqft. assembled/day. Expedited occupancy for client. Faster design through delivery than any other structural alternative. Rapid turn over to other follow-along trades. Standard processes expedite cycle time. Pre-fabricated components accelerate delivery schedule. Pre-approved connections accelerated plan checks and regulatory approvals.
