

## KAISER PERMANENTE ROSEVILLE HEALTHCARE

### PROJECT NARRATIVE

This 196,500 ft<sup>2</sup>, five-story medical office building sits on Kaiser Permanente's existing 14-acre campus in Roseville, CA. This Kaiser facility will house multiple departments including ophthalmology, women's health, an MRI/imaging suite, optical sales, a pharmacy, and physical therapy.

### CONX SOLUTIONS

The ConX System easily accommodated the architectural features of the structure, including a large sweeping curved facade. The site where the medical office building is being constructed is also adjacent to both an existing Kaiser facility that remained open during construction and a parking garage that is under construction. The ConX System was an excellent, non-obtrusive solution to these particular site constraints.

KEY PROJECT DATA	
<b>296,500</b> Square Feet	<b>23</b> Days to Erect Steel

### STAKEHOLDERS

Owner	Kaiser Permanente
Architect	HOK, Clark Pacific
Engineer	ConXtech/John A. Martin & Associates
Contractor	Rudolph & Sletten
Steel Fabricator	ConXtech Fabrication
Steel Erector	ConXtech Construction
ConXtech Scope	Structural Steel, Stairs, Roof Screen Steel, Parapet Steel, Elevator Guiderail Support Steel, Exterior Skin Embeds
